# AUR20218 CERTIFICATE II AUTOMOTIVE AIR CONDITIONING

NATIONALLY RECOGNISED  
TRAINING

## COURSE INFORMATION

This up skilling course will equip you with the skills and knowledge to service and repair airconditioning system in cars and heavy vehicles. It is designed for those with an automotive trade qualification or who are currently completing one through an apprenticeship.

This course will provide training and assessment in the following units of competency:

AURETU003	Service air conditioning and HVAC systems
AURETU004	Diagnose and repair air conditioning and HVAC systems
AURETU002	Recover vehicle refrigerants

The follow units are required to be completed before a Certificate II in Automotive Air Conditioning Technology can be issued. These units can be awarded via credit transfer or RPL.

AURAEA002	Follow environmental and sustainability best practice in an automotive workplace
AURASA002	Follow safe working practices in an automotive workplace
AURETR012	Test and repair basic electrical circuits
AURTTA018	Carry out diagnostic procedures
AURTTA004	Carry out servicing operations
AURTTC003	Diagnose and repair cooling systems
AURTTE004	Inspect and service engines
AURTTK002	Use and maintain tools and equipment in an automotive workplace
AURETR025	Test, charge and replace batteries and jump start vehicles
AURTTC001	Inspect & Service Cooling Systems

## COURSE OUTCOME

Upon successful completion of this course participants will receive a Statement of Attainment for AURTU003, AURTUR004 and AURET002.

A Certificate II in Automotive Air Conditioning Technology will only be issued once evidence of all units has been supplied and verified as correct.

This qualification will enable eligible participants to apply via [arctick.org](http://arctick.org) for a AAC02 Refrigerant Handling License.

## COURSE OUTLINE

This course involves fitting, installing, servicing and repairing of air-conditioning units on various types of vehicles.

## ENTRY REQUIREMENTS

To gain entry into this course, participants must have an automotive mechanical trade or be completing the qualification as part of their apprenticeship training.

Participants must apply for, and provide a copy of a trainee handling licence issued by ARctick. Refer to [arctick.org](http://arctick.org) to apply.
