

## **Engineering VET Trainer / Facilitator**

### **About the Role**

Tec-NQ is seeking an engineering trainer who is committed and passionate about making a difference for North Queensland youth and apprentices. Tec-NQ offers a supportive, close knit workplace culture. It offers its team of trainers and teachers the opportunity to inspire the next generation to achieve personal growth and career progression.

This position will support the delivery of trade programs across the scope of our operations as an RTO and senior school up to, and including Certificate III in Engineering.

The successful applicant will need to possess a Certificate III in Engineering - Fabrication. Previous training experience is preferred.

### **About Tec-NQ**

As a company, Tec-NQ values innovative solutions, industrious attitudes and safety in the workplace.

Tec-NQ has strong links with industry. It's RTO delivers nationally accredited training in Townsville, Mackay and Cairns. Vocational training is provided across broad industry areas including Construction, Electro-technology, Engineering, Automotive and Information Technology.

Tec-NQ maintains high standards of compliance as both an independent senior secondary school and registered training organisation (RTO). The senior school is based in Townsville, but its provision of boarding attracts students from across rural, remote and isolated areas of Queensland.

Tec-NQ's senior school focuses on transitioning students directly from school to the workforce. It's integrated work experience and training programs are supported by its strong links with industry. The trade-based curriculum enables students to learn with a purpose as they complete their senior studies.

### **Selection Criteria**

#### **Essential**

1. Possession of a trade qualification in Engineering (Fabrication), or equivalent, with a minimum of five years post trade work experience in the Engineering Industry.
2. Possession of a TAE40116 - Certificate IV in Training and Assessment, or, TAE40110 – Certificate IV in Training and Assessment plus TAELLN411 and TAEASS502.
3. Well developed verbal and written communication skills;
4. Ability to use information technology in various formats and combinations to enrich and extend the learning opportunities of the students;
5. Current C-Class Australian Drivers Licence; and
6. Queensland 'Blue Card' to work with children or eligibility to attain.

## **Desirable**

1. Demonstrated experience in the development, delivery and assessment of Certificate III in Engineering with the ability to adopt a multi-disciplinary approach to teaching and learning.

## **Apply**

If you believe you have the industry experience, skills and qualifications, please submit your resume and cover letter addressing the above selection criteria in an email to Deborah Robertson, Executive Business Manager.

***Forward your resume and response to selection criteria by Sunday 17th January 2021, to:***
