

COURSE INFORMATION

This course is required for plumbers to obtain the backflow endorsement for their licence.

This course provides training and assessment in the following unit of competency:

CPCPWT4022

Commission and maintain backflow prevention devices

CREDIT TRANSFER

If a unit of competency has been completed, a credit transfer will be provided upon receipt of a Statement of Attainment.

COURSE OUTCOME

Upon successful completion of this course participants will receive a statement of attainment in CPCPWT4022 - Commission and maintain backflow prevention devices. This competency forms part of CPC40920 Certificate IV in Plumbing and Service.

DELIVERY MODE

Training is delivered face-to-face.

COURSE PREREQUISITES

- CPCPCM2043 Carry out WHS requirements (or equivalent)
- CPCPWT3027 Install backflow prevention devices (or equivalent)
- CPCPCM3023 Fabricate and install non-ferrous pressure piping (or equivalent)

If you have completed these units or equivalent units in your prior studies, you must send an academic transcript/State of Attainment with your enrolment form. If you haven't completed these units, you will be required to undertake an RPL, that Tec-NQ will provide in class as part of the training.

ENTRY REQUIREMENTS

Applicants must hold a current Queensland plumbing license from the Queensland Building and Construction Commission (QBCC). Applicants must hold a Statement of Attainment for prerequisite units or be eligible for RPL or credit transfer of these units.

COURSE OUTLINE

This course provides learners with the skills and knowledge required to test, commission and maintain backflow prevention devices in water services. It covers the identification of requirements, preparation of work, commissioning and maintenance activities and finalisation of work including documentation.

COURSE TOPICS

- Preparation of work
- The identification of testing and commissioning requirements.
- The physical testing and commissioning of devices.
- Maintenance of devices and the completion of work finalisation processes

COURSE COST

PAYMENT Due on Enrolment \$745
