BACKFLOW PREVENTION REVALIDATION

COURSE INFORMATION

Are you up-to-date? This one day course is required for plumbers to revalidate their current Backflow endorsement.

This course provides training and assessment in the following units of competency:

CMBPDRV001

**Commission and maintain
backflow prevention devices
(Revalidation)**

CREDIT TRANSFER

If a unit of competency has been completed, a credit transfer will be provided upon receipt of a Statement of Attainment.

COURSE OUTCOME

Upon successful completion of this course participants will receive a statement of attainment in CPCPWT4022 - Commission and maintain backflow prevention devices. This competency forms part of CPC40920 Certificate IV in Plumbing and Service.

COURSE PREREQUISITES

The revalidation is only available for plumbers who currently hold the backflow endorsement on their plumber's licence. The backflow endorsement is required to be revalidated prior to its expiry date. If your endorsement has expired within the last 12 months, contact QBCC to seek advice.

ENTRY REQUIREMENTS

Applicants must hold a current Queensland plumbing license from the Queensland Building and Construction Commission (QBCC). Applicants must have previously held a backflow prevention endorsement and completed a Backflow Prevention (or Revalidation) course within the previous five years.

COURSE OUTLINE

This course provides learners with the skills and knowledge required to test, commission and maintain backflow prevention devices in water services. It covers the identification of requirements, preparation of work, commissioning and maintenance activities and finalisation of work including documentation.

COURSE TOPICS

- Preparation of work
- The identification of testing and commissioning requirements.
- The physical testing and commissioning of devices.
- Maintenance of devices and the completion of work finalisation processes

COURSE COST

PAYMENT	Due on Enrolment	\$350
----------------	------------------	--------------
